**Please find below and/or attached an Office communication concerning this application or proceeding.**

**Commissioner for Patents**

The Summary of the Claimed Subject Matter is still not compliant because it does not map the claim language of claim 1 to the specification, drawings and figures. The Summary of the Claimed Subject Matter section should be commensurate in scope to the independent claim(s) on appeal. Currently, appellant is confusing the claim scope by talking about the invention in this section and not the claim language itself.
